The technical complexity of Bio-Sciences, their life sustaining capabilities, coupled with the composite ground of Coding, inspire in me a passion for Biotechnology and its diverse applications.

EDUCATION

Sathyabama University, Chennai— *B.E. in Biotechnology*

2015 - 2020, Secured **70%**.

Sri Chaitanya Co-Ed Jr.College, Vijayawada — *BiPC*

2012 - 2014, Secured **81%**.

AREA OF INTEREST

Pharmacovigilance

MEDICAL CODING, MEDICAL TRANSCRIPTION

Personal inclination towards pharmacovigilance led me to take up minor independent theoretical research projects over the years.

Biotechnology

BIOTECHNOLOGY,BIOINFORMATICS

With a deep interest in Genome Sequencing, I conducted a research project that studied the Ray Fish in my Undergraduate Studies.

Coding

OPEN SOURCE SOFTWARE, CODING, WEB SCRAPING, WEB DESIGN

I wrote an interface communication between Telegram and Amazon Cloud Services to convert image data into text, supported by raspberry pi.

PROJECT

Genome Sequencing and Analysis of Ray Fish Using Illumina Nextseq500 Platform — *Positive Results*

TECHNICAL SKILLS

Coding : Python Automation and Web Design
System Administration : Open Source Software; Linux
Programming Languages : HTML5, CSS3, Python, JavaScript
Audio Video Processing : AV Editing

PERSONAL STRENGTHS

Logical Deduction
Mathematical and coding skills, logic and judgement are my strong suit.

Accuracy and Precision
Excellent information input and output skills. All works will be thrice edited.

Data Interpretation
Good interpretation skills. Accurate data information reproduction.

Communication Skills
Adept at business, technical and conversational English. Can be a team member, or lead a team.

LANGUAGES

English, Telugu, Hindi
